

blue sky, birds flying,
A butterfly and leaves
Green, life, stillness yet alive with nature
Birds singing beautiful plants and flowers
mountains, roof tops, blue sky, a crane
Overgrown gardens, unused cars, sunshine, the rose
by my front door
sunshine, overgrown garden
Trees and neighbours
2 new strawberries in my strawberry plant, wind and
builders working
the sky and birds of Tre Gwyr, Cymru (The Gower,
Wales)
messy garden
stillness
trees, wind, sun and blue sky
vacant / empty rooms /classrooms / borderline
derelict
quiet, calm, green, warmth
birds singing in unison
Light falling on the leaves of the tree moving in the
wind, insects and birds and blue sky
springtime
A wild garden left to grow
bright sky
Nature, Workmen, activity, sunshine, light, green

Clouds, blue sky, green leaves soft movement,
sunshine on green, shadows
Blue sky and clouds, tops of trees and reflections in
empty office building window
My window needs to be cleaned
The movement of the wind, the vibrant colours, the
hum of the traffic
dark clouds, blue sky, wind in green leaves
my garden, footballs, rugby balls trees, small leaves
A beautiful sunny day with a tree outside my window
and in the distance all the iconic architecture of the
City of London
my neighbours spaces all together with mine
Green trees, birds singing and flying buy, my
neighbour's laundry drying, a bright clear day
I see a man cleaning windows across from west
square in a beautiful day
Cars, vans, houses, trees, walkers, runners, road,
gardens, sky, clouds. sun
Flats, pigeon chicks, clouds, pure blue sky
quiet, and it's still dark over here
quiet with misty rain
luscious oak tree, light blue skies, clouds and man by
himself at a bus stop - wearing a red cap and texting
Empty city streets at night in a once busy night area
Trees, lovely neighbours house, petals on the floor,
reflection of the sky in the next doors window, crow
Leaves and trees being blown gently in the wind
bricks

Hong Kong: the lights on the side of buildings blinking,
the condensation from the cold air conditioning and
the hot, humid air outside fogging up windows, the
oranges of street lights dotting the horizon, the taxis
moving like ants on the roads, the thunderstorms
gathering above the water and amongst the
skyscrapers...
terrace crescent potted plants
ambulance, Night sky
Blue sky, green leaves, swaying with wind, quiet, still
an insect but no bird:(
blue sky & my seedlings growing with lovely birds
singing...
I saw people walking, flying insects, a blue sky, some
clouds, hospital buildings and British
Telecommunications.
Flower, garden, neighbour, blue sky, wind
Beautiful Ivy next to my window and humming bird fly
by it.
Tokyo, Kamata, just arrived in Tokyo : train running/
light flashing/ lots of building/ neons
lovely (but quite wild) garden -- wish I could share it --
the sun just came out which is late for us in Scotland
compared with London
a vigorous tree, blue sky, the red-brick London
converted house in front of the street, the light
reflected on the silver car parked beyond the leafy
fence in front of my window
Beautiful trees and bright blue sky!
clouds, blue sky, olive tree, flower, 2 neighbours
chatting, my garden need tending, grass
